

# Thasmiya Naz

## Junior Front End Developer

### About Me

---

I have a strong passion for designing and a deep understanding of HTML, CSS and JavaScript concepts. I am adept at writing clean, efficient, and well-documented code while following industry best practices and coding standards.

My technical skills include proficiency in **HTML**, **CSS** and **Javascript**. I possess strong foundation in Java and Database Management using MySQL.

I am well-versed with tools such as **Eclipse**, **Bootstrap** and **Visual Studio**.

I want to secure a challenging role as a Junior Front End Developer where I can utilize my skills, experience and knowledge to contribute to the growth of the Organization, while also learning and developing my skills.

### Educational Qualification

---

Bachelor of Engineering in Information Science from **VTU** recognized College  
Completed in the year 2022 from Sambhram Institute of Technology.

### Certification

---
